Summery

Motivated Full-Stack Developer with a solid foundation in problem-solving and technical project management. Recently completed a comprehensive full-stack web development bootcamp, specializing in building web applications using the MERN and PERN stacks (MongoDB, PostgreSQL, Express.js, React.js, Node.js). Proficient in both frontend and backend development, with expertise in creating responsive user interfaces using Tailwind CSS, Bootstrap, and Material-UI. Skilled in managing server-side logic, integrating APIs, and handling database management. Experienced in state management (Redux, Context API), version control (Git, GitHub), and team collaboration using Trello.

Education

Full-Stack Web Development Bootcamp
July/2024 - December/2024

Meraki Academy

- Comprehensive Full-Stack Development Bootcamp spanning 22 weeks, with over 400 hours of training.
- Covered both foundational and advanced web development skills.
- Gained hands-on experience with technologies like JavaScript, HTML, CSS, React, Node.js, Express.js, MongoDB, and more, while completing two full-stack projects: one solo and one as part of a team.
- Emphasized problem-solving, project-based learning, and teamwork.

Mechanical Engineering
September/2014 - August/2018

Hashemite University

- Bachelor's Degree in Mechanical Engineering

Projects

E-Commerce Platform Website

Full-Stack , PERN Stack , Team

- Description:
  - Developed a full-stack e-commerce platform as part of a collaborative team project . The platform allows users to register as customers or sellers, browse products, manage carts and orders, and leave reviews.
  - User authentication and role-based access (Admin, Seller, Customer).
  - ·Full CRUD operations for products, categories, and user management.
  - Interactive UI built with React.js and Redux for state management.
  - Backend API built using Node.js, Express.js, and PostgreSQL for database management.
  - Collaborative development with Git and Trello for task management.
  - Technologies Used: PERN Stack (PostgreSQL, Express.js, React.js, Node.js), Redux, Vite, and Git.
  - This project highlights skills in full-stack development, teamwork, and problem-solving, preparing me for real-world challenges in software development.
- GitHub Code: https://github.com/TekTitans/MERAKI_Academy_Project_5.git

Projects

- **E-Commerce Website for Football Jerseys**
  Full-Stack , MERN Stack , Solo
  Description:
  Developed a modern, full-stack e-commerce platform for selling football jerseys, featuring user authentication, CRUD operations, and product search with filtration. The application allows different user roles (Admin/User) and integrates external APIs for real-time product data.
  Technologies :
  MERN Stack (MongoDB, Express.js, React.js, Node.js)
  Deployed Version: https://forzajerseys.netlify.app/
  GitHub Code: https://github.com/AlKhateebKhaled/MERAKI_Academy_Project_4.git

Experience

- **Technical & Design Engineer**   May/2021 - August/2024

  Jadara Electronics
  - Conducted site surveys and technical assessments to support data-driven decision-making and problem-solving.
  - Produced precise design documentation and CAD drawings, reducing errors and improving project efficiency.
  - Developed tailored, data-backed proposals, boosting acceptance rates and driving client engagement.
  - Installed and maintained solar systems, optimizing performance and ensuring seamless integration with existing infrastructure.

- **Site Engineer**   September/2018 - May/2021

  Thunder Est.
  - Ensured quality and compliance by supervising mechanical pre-assembly and installation processes.
  - Optimized workflows and minimized downtime through precise gear and motor alignment.
  - Delivered progress reports to support data-driven decision-making and project adjustments.
  - Analyzed project requirements and specifications to facilitate informed planning and execution.

- **Mechanical Engineer Trainee**   June/2018 - August/2018

  Bitar Consultant
  - Designed complex systems, including HVAC, water supply, drainage, and firefighting systems, ensuring compliance with project requirements.
  - Collaborated with and supported other engineers to ensure the successful completion of projects.
  - Applied problem-solving and technical design skills, contributing to efficient system implementation and project success.

Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material-UI
- **Backend:** Node.js, Express.js, RESTful API Integration
- **Database Management:** MongoDB, PostgreSQL
- **Version Control:** Git, GitHub
- **State Management:** Redux, Context API
- **Project Management:** Trello, dbdiagram.io
- **Soft Skills:** Communication, Teamwork, Problem-Solving
